Work experience

Student Assistant

University of Nueva Caceres | J. Hernandez Avenue, Naga City, Camarines Sur, Philippines 4400

January 2024 to July 2025

Student Assistant supporting the university's medical and dental services, providing frontline assistance to students seeking healthcare and maintaining accurate patient records in the UniMeds system.

Key Responsibilities

- Assisted students with medical and dental concerns, serving as a first point of contact for inquiries, appointments, and referrals.
- Supported clinic staff in the day-to-day delivery of medical and dental services to the student population.
- Recorded and maintained patient information in the UniMeds system, ensuring entries were accurate, complete, and up to date.
- Handled patient records confidentially in accordance with health information privacy standards.
- Managed patient intake and documentation, including updating consultation details and treatment records.
- Coordinated with healthcare personnel to ensure smooth patient flow and timely service.

Skills Demonstrated

- Confidentiality and discretion in handling sensitive health information
- Attention to detail and accuracy in data entry
- Patient-facing communication and customer service
- Familiarity with health records management systems (UniMeds)
- Organization and time management in a clinical environment

Multitasking Ability **Web Development** **Network Troubleshooting** **Customer service** **Technical Support** **IP Addressing** **Software troubleshooting** **Communication skills** **Project Management**

Certifications and licenses

Cisco Networking Foundations: Fundamentals of Cisco Networking

September 2026 to Present

Mastered core Cisco networking principles, architecture, and foundational routing and switching concepts through LinkedIn Learning. Gained practical understanding of Cisco enterprise solutions, network topologies, protocols, and fundamental network management practices.

Networking Essentials

December 2024 to Present

Demonstrated foundational knowledge in network communication, LAN creation, and basic network security through the Cisco Networking Academy. Key competencies gained include:

- Network Architecture & Protocols: Configured home/small office networks, Ethernet communications, and application layer services.
- IP Addressing & Services: Applied IPv4/IPv6 address management principles, DHCP address assignments, and client internet access mechanisms.
- Wireless & Security Configuration: Configured integrated wireless routers and clients for secure connectivity while applying security best practices to mitigate network attacks.
- Cisco Device Management: Built simple networks and managed network operating systems using Cisco IOS.
